Sending the Baby Through College

The "honor man" last year in one or the best scientific schools in the country was a son of parents who were poor but very wise.

The year their baby was born they opened a "College Education Account in a saving bank. They laid aside only one dollar a week, but when the boy was eighteen these small savings had grown to a sufficient size to pay his way through a costly college.

One dollar will open an account in this bank in your baby's name or in yours.
